Project Design Phase-I
Solution Architecture

Date	10 October 2022
Team ID	PNT2022TMID41234
Project Name	Project – Web Phishing Detection
Maximum Marks	4 Marks

Solution Architecture:

Solution Architectural design is concerned with understanding how a system should be organized and designing the overall structure of that system. Its goals are to:

- It is the process for identifying sub-systems making up a system and the framework for sub-system control and communication.

- The architecture view of the proposed phishing detection system such that a user enters a URL link.

- The link moves through different trained machine learning.

- Define features, development phases, and solution requirements.
